

Zhao Ran - Machine Learning Intern Candidate

Email: zhaoran@example.com | Location: Hangzhou

Target Roles: ML Intern, RAG Evaluation Intern

Skills: Python, PyTorch, pandas, evaluation metrics, embedding experiments, FAISS tutorial, model analysis

Project: VisionBench

Built model evaluation dashboards with PyTorch and pandas. Compared accuracy, latency and failure categories across image classifiers.

Project: Retrieval Study

Ran offline experiments for BM25 and dense retrieval on course documents. Logged recall at k and manually labeled hard negative cases.

Coursework: learned LangGraph and agent concepts from papers and blog posts, but did not ship a multi-agent production workflow.

Gap Notes: no FastAPI production service, no online job source integration, no application packet generation.
